POPCON MENTAL MATH!

Directions:

Mentally add 10 or 100 to a given number 100–900, and mentally subtract 10 or 100 from a given number 100–900. Cut out the popcorn cards and sort into two piles, red and blue.

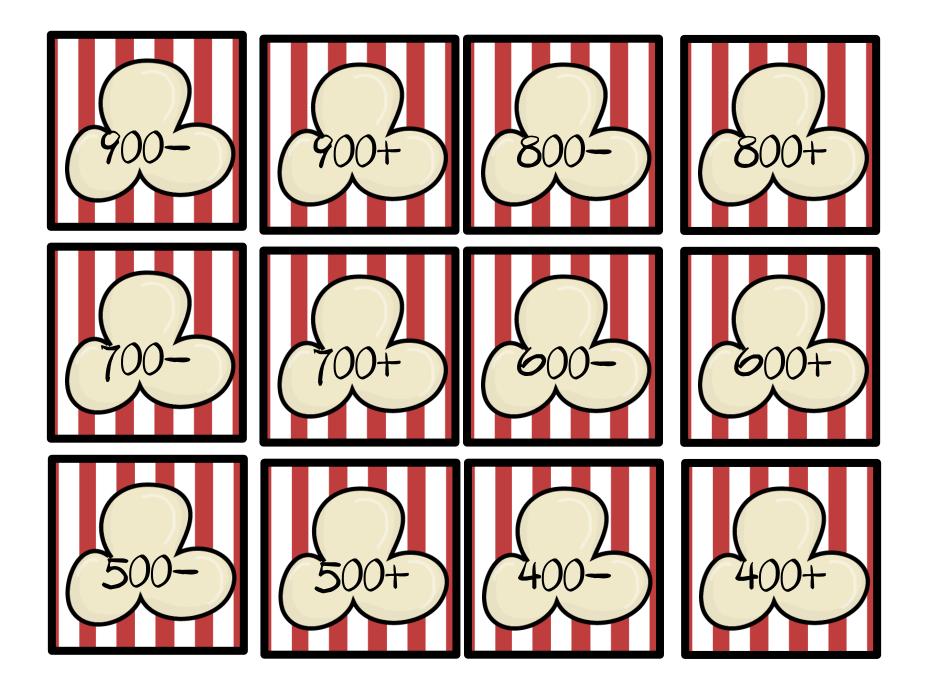

For one minute, students flip one card per pile and answers the equation . Correct answers are placed in a separate pile.

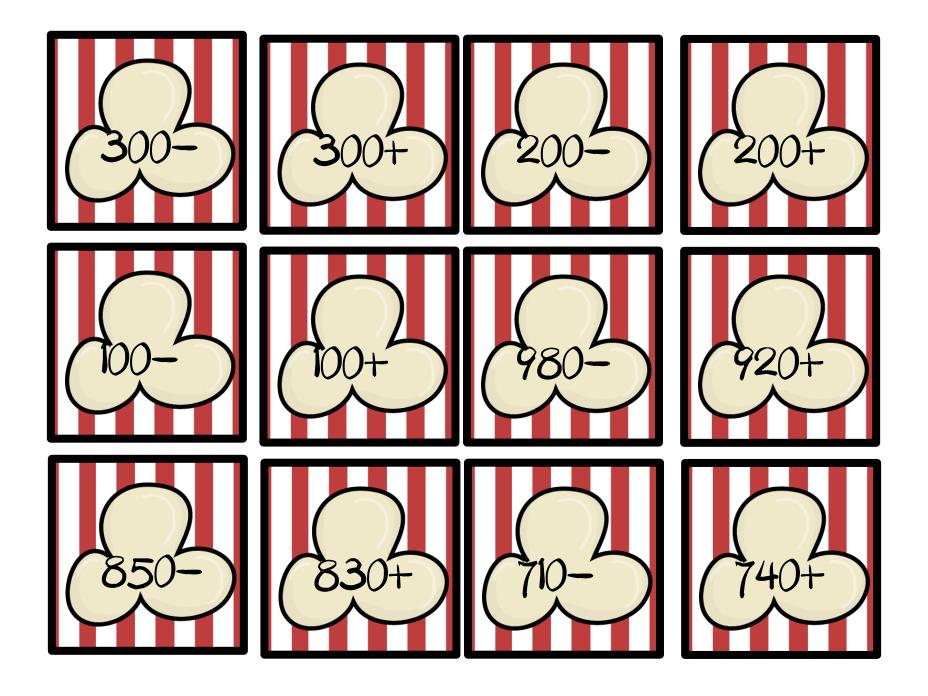

After the minute, student records the correct equation and answer in the Popcorn Math

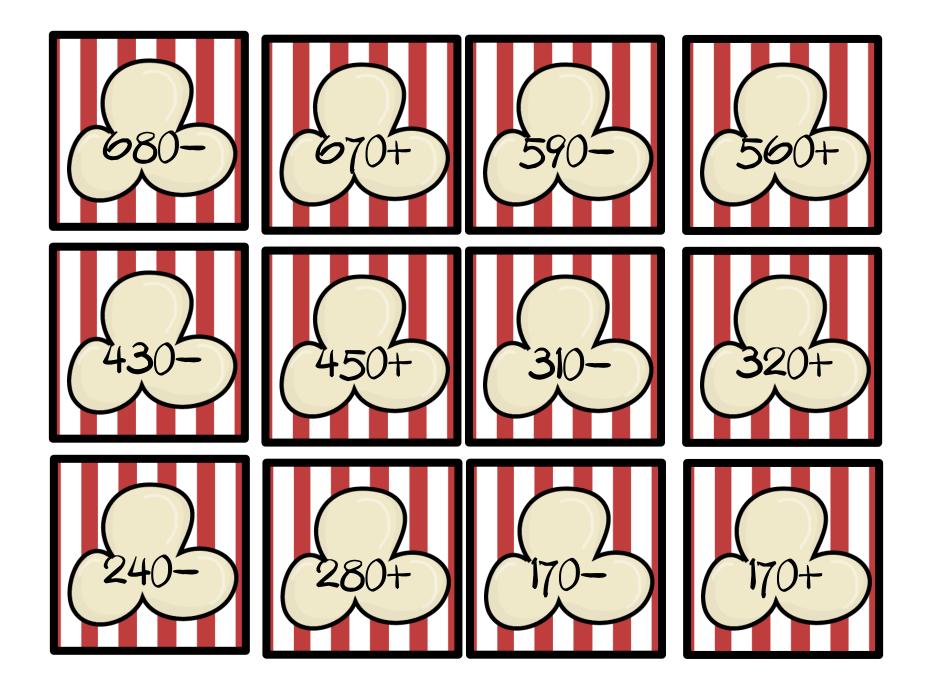

Sheet!
