**Worksheets and Activities
that teach every standard!**

Common Core State Standards

Include multimedia components (e.g., graphics, sound) and visual displays in presentations when appropriate to enhance the development of main ideas or themes.

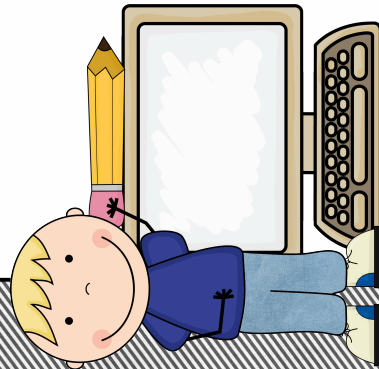

(Power)

Get to the Point

SL.5.5. Include multimedia components (e.g., graphics, sound) and visual displays in presentations when appropriate to enhance the development of main ideas or themes

Use the activity sheets to help plan out a PowerPoint presentation. In addition to your topic, you must figure out how to include the right multimedia, such as pictures, video, sounds, charts, and transitions, to make your presentation better! A media reference sheet is included to help focus your ideas. After your planning sheets are complete, use the blank PowerPoint layout slides to design the overall look of your presentation before creating one on the computer.

Name _____

PowerPoint Planning Sheet

Topic of the Presentation: _____

Title: _____

Main Idea: _____

Supporting Information (This will become the information on each of your slides):

- _____
- _____
- _____
- _____
- _____
- _____

Name _____

Slide Sorter

Directions: It is time to plan and sort out the slides that will be included in your presentation.
Write the main idea or talking point on each slide that you plan to create.
If additional slides are needed, use the second planning sheet for slides 6-11.

Media Reference Sheet

Graphics/Video

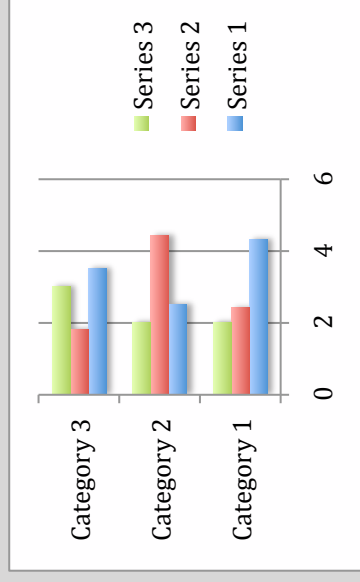

- Pictures/Clip Art that represent and enhance the topic of your presentation
- General Ideas:
 - Pictures of the topic being discussed
 - Drawings
- Science Ideas:
 - Animal Videos
 - Documentary
- Social Studies Ideas:
 - Video Interview
 - Biography Clip
 - Historical Reenactment

Sounds

- Sound effects that represent and enhance the topic of your presentation
- General Ideas:
 - Music/Song
 - Short Sound clips (ex. crowd applause)
- Science Ideas:
 - Sounds of animals
 - Examples of frequency and pitch
- Social Studies:
 - Primary Source Recording
 - Interview

Charts

- Charts, graphs, or tables that represent and enhance the topic of your presentation
- General Ideas:
 - Table of Data/Information
- Science Ideas:
 - Weather Data
 - Classifying Groups (ex. types of rocks)
- Social Studies:
 - Voting Preferences
 - Population Data

PowerPoint Pizzazz!

Directions: To enhance your presentation, you may add graphics, sound effects, charts and transitions between each slide. Use the **slide sorter** worksheet to help you determine what kinds of pictures, sounds and transitions are best for each slide. Record these media types in, if any, in the table below. *Remember, not every slide may need media added.

Adding Audio and Visual Components

Directions: Add audio recordings and/or visual displays to a presentation to enhance the development of the main ideas. Use a computer, iPod, iPad, or digital recorder to record your voice. Include photographs, clipart, and other digital graphics. Use fluid reading and speak with interest in order to express emphasize or enhance certain facts or details. Don't forget to include your own point of view.

There are several programs available for children to use to create digital stories. Some are listed below.

For Microsoft Products

Photostory ...free program using still photos or graphics and added audio

Powerpoint

For Apple Products

My Story-Book Maker ...App for iPad/iPod/iPhone (\$) make drawings and record your voice

Writer's Studio ...App for iPad/iPod/iPhone (\$) make drawings, add photos, and record your voice

iMovie ...usually included in Mac purchase

Keynote (like Powerpoint) included in iWorks

My Presentation:

Use clipart and paint programs, scanners, digital cameras, and digital pens to create and include graphics and visual displays.

Record your own music by attaching instruments to your computer or audio-taping yourself play.

Components I will add...

- | | | |
|---------------------------|---------------------|-------------------------------|
| _____ computer graphics | _____ songs | _____ different font |
| _____ scanned photographs | _____ speeches | _____ bold, italic, underline |
| _____ scanned drawings | _____ audio text | _____ movie/TV clips |
| _____ computer drawings | _____ sound effects | _____ video |
